Journal of Hydrology, 164 (1995) 393–394
Elsevier Science B.V.

Contents

Use of isotopic data of estimate water residence times of the Finger Lakes, New York
R.L. Michel and T.F. Kraemer 1
Flow of variable-density formation water in deep sloping aquifers: review of methods of representation with case studies
S. Bachu 19
Aluminium speciation variations in an acidic upland stream draining the Hafren spruce forest, Plynlimon, Mid-Wales
C. Neal 39
Sensitivity analysis of slug tests Part 1. The slugged well
C.D. McElwee, G.C. Bohling and J.J. Butler, Jr. 53
Sensitivity analysis of slug tests Part 2. Observation wells
C.D. McElwee, J.J. Butler, Jr., G.C. Bohling and W. Liu 69
Fluxes of water and solute in a coastal wetland sediment. 1. The contribution of regional groundwater discharge
W.K. Nuttle and J.W. Harvey 89
Fluxes of water and solute in a coastal wetland sediment. 2. Effect of macropores on solute exchange with surface water
J.W. Harvey and W.K. Nuttle 109
Modelling sensible heat fluxes from a wheat canopy: an evaluation of the resistance energy balance model
H.A. Cleugh and F.X. Dunin 127
Regional-scale ground water quality monitoring via integer programming
P.F. Hudak, H.A. Loaiciga and M.A. Marino 153
Infiltration mechanisms related to agricultural waste transport through the soil mantle to karst aquifers of southern Indiana, USA
M.Z. Iqbal and N.C. Krothe 171
Hydrogeochemistry of Grand Cayman, British West Indies: implications for carbonate diagenetic studies
K.-C. Ng and B. Jones 193
A multiple-pore-region concept to modeling mass transfer in subsurface media
J.P. Gwo, P.M. Jardine, G.V. Wilson and G.T. Yeh 217
The influence of pore water velocity on transport of sorptive and non-sorptive chemicals through an unsaturated sand
E. Shimojima and M.L. Sharma 239
How wet is wet? Precipitation constraints on late Quaternary climate in the southern Arabian Peninsula
W.W. Wood and J.L. Imes 263
The importance of fog-drip water to vegetation: Point Reyes Peninsula, California
N.L. Ingraham and R.A. Matthews 269
Convolution à débit variable à partir de réponses de traçages artificiels dans les milieux poreux ou karstiques; théorie et modèle
M. Dzikowski 287
Convolution à débit variable à partir des réponses de traçages artificiels; application à un système karstique (Causse de Gramat, Lot, France)
M. Dzikowski, F. Delay, J.P. Sauty, N. Crampon et G. de Marsily 305
Computation of unit hydrographs by a Bayesian method
A. Ramachandra Rao and W. Tirtotjondro 325
Scaling the ground water flow equation
M.H. Nachabe and H.J. Morel-Seytoux 345

Regional recharge to a karst aquifer estimated from chemical and isotopic composition of diffuse and localised recharge, South Australia
F.W. Leaney and A.L. Herczeg 363

Errata 389
Announcements 391
